

ARAGONITE INFILL - WHY IT WORKS!

FAST, POWERFUL AMMONIA CONTROL:

- Up to 71% reduction in 1 hour
- Reaches 0 ppm at 9" depth in 5 hours
- Helps keep turf fresher and cleaner without chemicals

REDUCES SURFACE TEMPERATURE:

- Keeps turf cooler for pets, people, and play

BIOGENIC & NON SILICA:.

- Safe, natural mineral infill

HIGHLY SUSTAINABLE & REUSABLE:

- Long lasting performance with minimal environmental impact

CONSISTENT NATURAL GRADATION:

- Available in a 20–50 mesh for optimal turf compatibiliy.
-

WHY ARAGONITE TURF INFILL?

Aragonite calcium carbonate provides enhanced surface interaction and buffering capacity compared to conventional mineral infill materials.

These properties support faster ammonia reduction and improved odor control performance

FLEXIBLE PACKAGING:

- Offered in 50 lb bags, 3000 lb bulk bags or bulk
- Ships from Gadsden, AL

SUPPORTED BY EXTENSIVE TESTING

PLAY IT COOL By Calcean
